Education

Kalinga Institute of Industrial Technology (KIIT) Bhubaneswar, Odisha
Bachelor of Technology (B.Tech.) in Computer Science and Engineering; CGPA: 8.35 *2023 – 2027*

Relevant Coursework

- Data Structures
- Algorithm Analysis
- Database Management
- Operating Systems
- Object-Oriented Programming

Projects

Weavyr – AI Research Networking Platform [GitHub] March 2026

- *Tech Stack:* Kotlin, Jetpack Compose, Node.js, Hono (Cloudflare Workers), PostgreSQL, Prisma, TypeScript, JWT, Zod
- Engineered a scalable serverless backend with Hono, TypeScript, and Cloudflare Workers, delivering low-latency, edge-optimized REST APIs.
- Architected PostgreSQL data models with Prisma and Prisma Accelerate for efficient connection pooling and querying of users, papers, and interactions; built a swipe-based matchmaking engine for mutual collaboration.
- Implemented secure authentication and validation using JWT, bcrypt, and Zod, supporting user discovery, bookmarking, and collaboration workflows.

GitHub RAG – AI-Powered Repository Question Answering System [GitHub] June 2026

- *Tech Stack:* Python, FastAPI, React, TypeScript, Gemini API, NumPy, GitHub API, Vite
- Built a RAG system for natural-language questions about GitHub repositories, using Gemini embeddings and vector similarity to retrieve relevant source-code context.
- Developed asynchronous repository ingestion with GitHub API file fetching, overlapping code chunking, normalized vector storage, and FastAPI background indexing jobs.
- Integrated Gemini-generated answers with verified file and line-range citations through a React/Vite interface, improving traceability and reducing unsupported references.

PulseBlog – Serverless Publishing Platform [GitHub] Jan 2026

- *Tech Stack:* React, TypeScript, Hono, PostgreSQL, Prisma ORM, Prisma Accelerate, JWT, Zod
- Built a serverless blogging platform enabling users to create, edit, and discover technical articles.
- Implemented JWT authentication, bcrypt password hashing, and Zod validation for secure API access.
- Designed REST APIs using Prisma ORM with connection pooling via Prisma Accelerate.

Technical Skills

Languages: C++, C, Java, Python, JavaScript, TypeScript, SQL
AI/ML: RAG, LangChain
Frontend: React.js, Next.js
Backend: Node.js, Hono, REST APIs, JWT, Prisma ORM, Zod
Databases: PostgreSQL, SQL, Vector DB
DevOps: Docker
Tools: Git, GitHub, Postman, VS Code

Certifications

– **NPTEL Certification – Database Management Systems (8 weeks, 65 hrs)**: Certified in relational database models, SQL queries, schema design and transaction management. [View Certificate]

Achievements

- Solved **1000+ Data Structures and Algorithms (DSA) problems** across LeetCode, Codeforces, and CodeChef.
- Achieved **Codeforces (Max Rating: 1162)** and earned a **3-Star CodeChef** rating.
